

Seagirt Marine Terminal

Seagirt Marine Terminal, with its seven post-Panamax cranes, including three dual hoist cranes, and 12 rubber tired gantry cranes, boasts an average of 37 moves per hour at this terminal, one of the fastest and most efficient on the U.S. East Coast.

- Location:** 2 miles (3.2km) to I-95
2 miles (3.2 km) to I-695
Adjoins Dundalk Marine Terminal via internal Connector Bridge
- Use:** Container terminal
- Size:** Total terminal area is 267 acres (112 ha)
Net container storage is 134 acres (54.23 ha)
- Gates:** Terminal entrance gate with 14 inbound and 5 outbound lanes
Fully automated; EDI; Scales; TIR; Radiation Scanners
- Berths:** 4 total berths; 3 for vessels and 1 for barge (BGE Layberth)
Berths 1 through 3 - 3,127 ft. (953.0 m); Depth - 45 ft. (13.7 m)
Barge Berth - 700 ft. (213.4 m); Depth - 32 ft. (9.8 m)
- Buildings:** 4 Buildings with a total of approximately 20,000 square feet
2 Inspection canopies totaling approximately 25,000 square feet
- Cranes:** Berths 1 through 3 have 7 cranes with 100 ft. (30.5 m) gauge
Three cranes are dual hoist, Cranes are arranged (from Berth 1 to Berth 3)
2 single, 3 dual hoist, 2 single hoist
Height available under spreader is 110 ft. (36 m) all cranes
Outreach over vessel is 140 ft. (42.7 m) (Post Panamax) all cranes
Maximum lifting capacity with spreader is 50 long tons (50.8 M.T.)
Maximum lifting capacity without spreader is 60 long tons (60.9 M.T.)
11 Twin-Twenty spreaders are available of which 7 are Separating Center Housing type spreaders
2 Overheight attachments (Speedloaders) are available
12 rubber tired gantry cranes (RTG's) - terminal usage
Capacity - 50 long tons (45.36 M.T.)
Span - 78 ft. (23.8 m)
Height under spreaders - 50 ft. (15.2 m)
- Reefer Outlets:** Total = 192
- Rail:** Direct connection to adjacent ICTF by CSX Transportation
- Services:** Stevedores: Ceres, Ports America
