## MARYLAND PORT ADMINISTRATION Customer Email Distribution Update

The MPACIC is updating the POB eBroadcast database. Please respond only if your information has changed or you wish to add or delete a contact from our database. If at all possible, email addresses are preferred; fax numbers are acceptable if this is the only means of communications to your office.

When an eBroadcast has been returned “Undeliverable” or “Failure Notice”, it is deleted from our database.

It is important to keep our records as current as possible in order that your office receives any information relative to the Port of Baltimore’s operations.

Please keep in mind that all POB eBroadcasts are posted to our website and if you have not received the alert/notice via email, please contact the [MPACIC@marylandports.com](mailto:MPACIC@marylandports.com).

Thanking you in advance for your assistance.
